

## Continuous Pump Performance Monitoring

- Unique and proven product
- Safe & easy implementation
- Guaranteed outcomes
- Optimise your process and increase efficiency
- Upgrade Option, no Civils required
- On Board Datalogger

## NivuFlow Energy Saver Fixed Speed

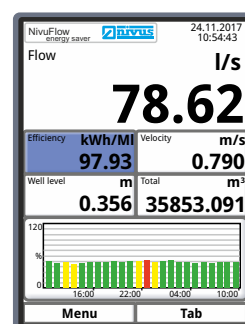

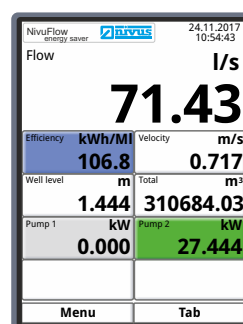

## NivuFlow Energy Saver Variable Speed

### Improve your Performance and increase Efficiency

- Easy Upgrade path
- Validated No-Risk-Investment
- Accurate control of your kWh/MI
- Efficient prioritising of call outs
- Transparency of consent compliance
- Traffic Light system enhances operator visibility with Red – Amber – Green efficiency status
- Efficiency improvements from 10 – 45 %
- No Civils means lower costs
- Constant data logging of pump performance

## Benefits

Prioritised call out intervention

- + Saves unnecessary call outs
- + Saves unnecessary driving
- + Reduces health & safety/lone worker risks
- + Reduces carbon miles
- + Maximizes efficiency of maintenance operation
- + Consent levels monitored and delivered
- + Only pay for Consent levels flow forward

### INSTRUMENTATION FOR WATER INDUSTRY
