

[measure analyse optimise]

this is the motto we would like to use to welcome you to our stand at IFAT. There is a lot that is new at NIVUS. Let us show you our comprehensive solution concepts that go beyond what you might be familiar with from NIVUS.

For example, we will be showing our measuring system for particle concentrations in water or our new approach to heavy rain and flood forecasting. We will also be happy to present our extended services, which relieve you as an operator. And we have also done a lot of other things. Your visit is worth it!

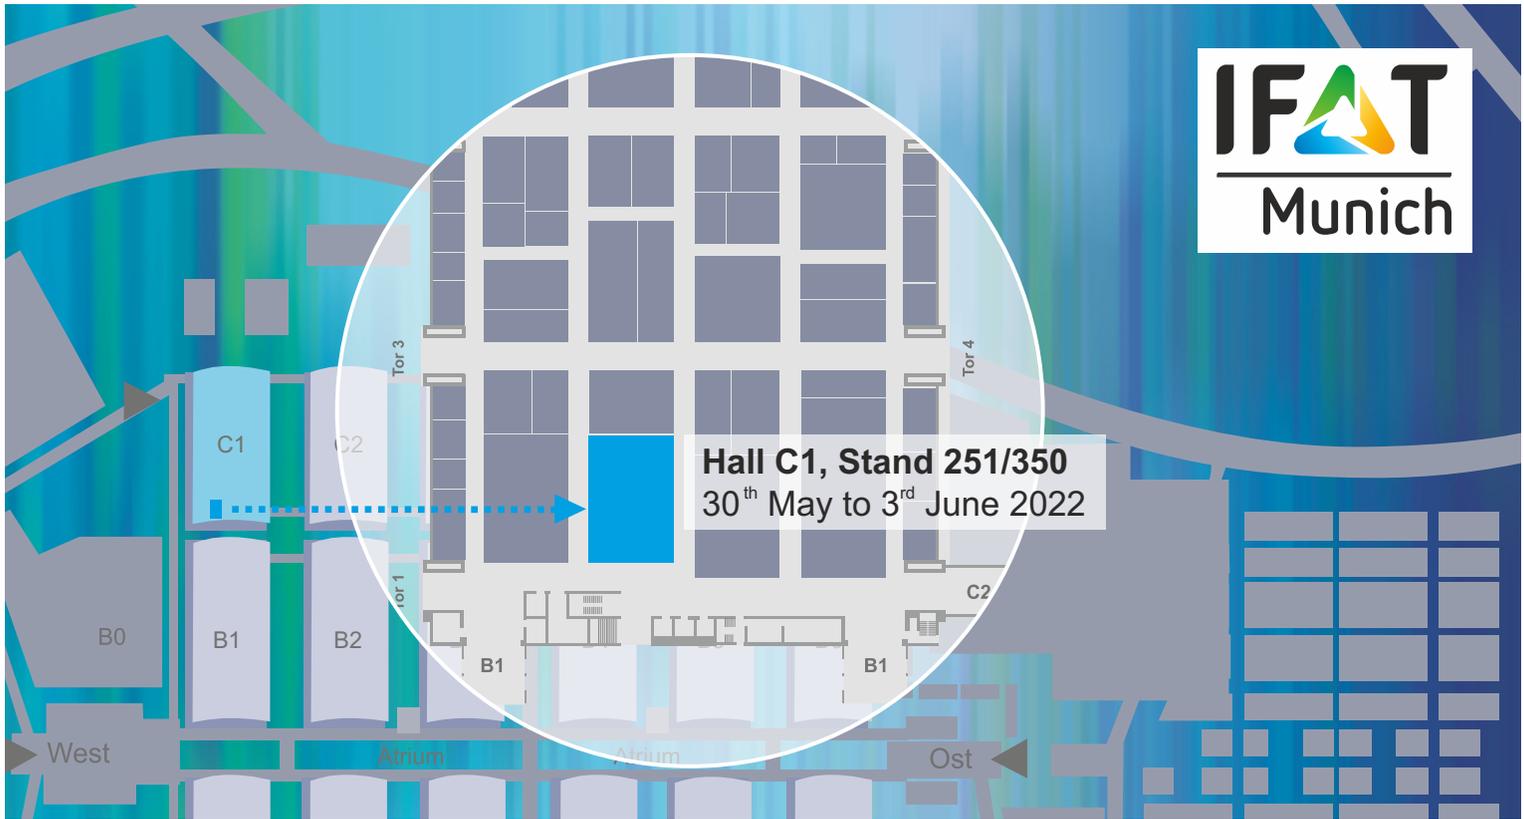

Visit us in Hall **C1 Stand 251/350**

IFAT 2022 - 30th May to 3rd June, Munich Exhibition Centre

We look forward to seeing you!

We will give you free admission to IFAT. Request your personal ticket code:
